&lt;p&gt;Clyde Barrow, chairman of the Department for Political Science at The University of Rio Grande Valley and an oft quoted expert on casinos writes. Historically, the slot machine has been the most profitable operation in any casino, although its payout rates in Las Vegas were typically higher - 95%-99% + ... Per Square Foot, slot machines are the most lucrative in the world, bringing in between \$1 million and \$10 million dollars daily. These numbers can vary depending on the time of year (vacation season or not). Slot machines are a reputation from an establishment!
